4	3 trusts	£40	£29.91	£399	£50	£37.41	£499

Choose from the following 3 x Trusts:

Under 18s' Discretionary Trust - to ensure that should any of your future potential Beneficiaries be under the age of 18 at the point you die that their inheritance will be looked after by the Trustees you designate and invested according to your wishes and appointed out for the purposes that you stipulate. At the age of 18 the funds in this Trust would usually be appointed to a Young Adults' Discretionary Trust.

Young Adults' Discretionary Trust - to ensure that should any of your future Beneficiaries be young adults (18-30) when you die that they have their inheritance appointed in phases to them by your nominated Trustees at the ages you set out and for the purposes you stipulate.

Protective Property Life Interest Trust - PPLITS for couples include the **FREE** provision of all legal work involved in changing the ownership from Joint tenants to Tenants in Common that ensures that after this Trust is placed within your Will and following the death of the 1st partner that their half of the property will be transferred into the Trust. This means that if the survivor remarries and divorces or dies that the half belonging to the deceased partner will be protected for the Children and not lost to the future partner/spouse of the survivor causing sideways disinheritance. This legal work is usually £1194 inc v.a.t. A PPLIT for a single person enables a partner to remain in the property until a specific time (this is called a life interest) but after that time the property is appointed to the Children as beneficiaries. This protects a partner without actually giving them the property absolutely.

WE WILL DONATE 10% OF ALL EXTRA PAYMENTS FOR TRUSTS TO CHILDREN IN NEED FROM GOOD FRIDAY 2018 TO CHRISTMAS DAY 2018
