

PROPERTY PROBATE PRESERVATION TRUST (PPPT) FOR JOINT OWNERS (WHERE ONE PARTY HAS A DISQUALIFYING MEDICAL DIAGNOSIS AND HAS LOST MENTAL CAPACITY) WITH COMBINED ESTATES UNDER £625K WITH LASTING POWERS OF ATTORNEY, WILL, ADVANCE DIRECTIVE / LIVING WILL AND GIFT TRUSTS

We conduct a forced severance of the Tenancy of your property on the Land Registry to change you from Joint Tenants to Tenants in Common which can be legally requested by the non-diagnosed party.

For the non-diagnosed party, we will provide a Property Probate Preservation Trust and a new Will containing a Nil Rate Band Trust (and if leaving your property to your children) a Residential Nil Rate Band Trust also.

The Trusts within this strategy will ensure that your assets will not add to the beneficiaries of the non-diagnosed party for inheritance tax calculations and will not interfere with any benefits that a beneficiary may be receiving due to the way the funds are appointed out of the Trusts and your estate and, this also protects against any beneficiaries losing half or all of their inheritance if they were to be married and subsequently divorce or die after inheriting because the Trusts within this strategy ensure that all assets within them have to pass down the bloodline only and not go to spouses (unless you specify otherwise).

So long as the non-diagnosed party has complied with the rules concerning deliberate deprivation of assets, the property will be 100% protected if the diagnosed party dies first and the survivor eventually goes into care, because their property Trust will have been legally and correctly put in place well in advance of their need for care, and changes the ownership of their share of the property from absolute to that of a Trustee, meaning that a Local Authority will be unable to take any part of the property into consideration when assessing their financial position (because if the diagnosed party dies first and leaves their half of the property to the non-diagnosed party, the diagnosed party, or their appointed attorneys via a registered Lasting Power of Attorney for Property and Finance, will have been able at that point to put the diagnosed party's half of the property into the Trust we are setting up here) preventing the racking up of huge care fee bills that would otherwise have to be paid from the final estate or through the sale of your home.[†]

If both parties need to go into care before either has died, the share of the property belonging to the non-diagnosed party will be 100% protected with their new Property Trust, meaning only the share of the diagnosed party could be taken into consideration for care fees. If the non-diagnosed party dies first, their half of the property is 100% secure in their Trust, so if the diagnosed party is already in care at that point or subsequently goes into care, then only the share of the non-diagnosed party can be taken into consideration when assessing care fees.

In addition, when used in conjunction with the Powers of Attorney outlined below, the chosen Attorneys for Property and Finance for the non-diagnosed party would also (should they wish to) be able to rent out the property, if they are the survivor and go into care, and, use the resulting rental income, to "top up" any financial award the survivor may be eligible for, ensuring the survivor would be able to receive a far better level of care than they would otherwise be able to get from that which the basic award would provide.

We set up one registered Power of Attorney covering Health and Welfare for the non-diagnosed person which will, in the event the non-diagnosed party no longer has mental or physical capacity, give the power to the persons that are nominated (their attorneys) to make decisions on that party's behalf about their health and Welfare.*

We also set up one registered Lasting Power of Attorney for Property and Finance for the non-diagnosed person, which will do the same as above but for decisions about financial affairs.*

An Advance Directive/Living Will for the non-diagnosed party is also provided, which gives their nominated attorneys, who have the power to speak on their behalf, their words, wishes and directions concerning specific medical scenarios in advance of them being needed, so there will be no doubt what the wishes of the non-diagnosed are in the eventuality that they cannot speak for themselves.

As advised above, we will also provide the non-diagnosed party with a new Will within which will be a Nil Rate Band Trust (and if they are currently leaving their property to children), a Residential Nil Rate Band Trust, to receive their estate after their death, up to the Nil Rate Band (currently £325,000 per person) or Residential Nil Rate Band (currently £500,000 per person). Putting the residuary estate up to the Nil Rate Band and/or Residential Nil Rate Band into these Trusts is a far better gifting vehicle than purely giving the funds absolutely to the beneficiaries which could then be lost if any of the following were to affect them - divorce, bankruptcy, death passing the funds out of the bloodline, care fees or ultimate inheritance tax on the gift itself in due course by the beneficiary's own descendants/ beneficiaries of their Will. This method of gifting from the estate therefore ensures that beneficiaries are fully protected against all the above scenarios.

An extra copy of the non-diagnosed party's Will is also included within this package to ensure that whatever happens to their own copy there is another signed and witnessed original legal copy of their Will that will be able to be used when the time comes.

All standard legal, Land Registry and conveyancing fees including the provision and completion of all standard associated official government registration documentation together with all relevant solicitors' fees are provided for you FREE OF CHARGE when taking out this package.

The Priority Client Cover listed below must be taken in conjunction with this package at £9.99 per month.
